Elegante Stand-Off

The Elegante Railing System brings innovation to the Architectural and design industry. This system is so unique due to its frameless features, using ½" tempered glass or laminated glass and 2" diameter standoffs made of 316 stainless steel.

Depending on the structural substrate 4" x 8" back plate could be utilized. The back plates have predrilled holes to ease installation and adjustments. Custom lengths and diameters are available upon request.

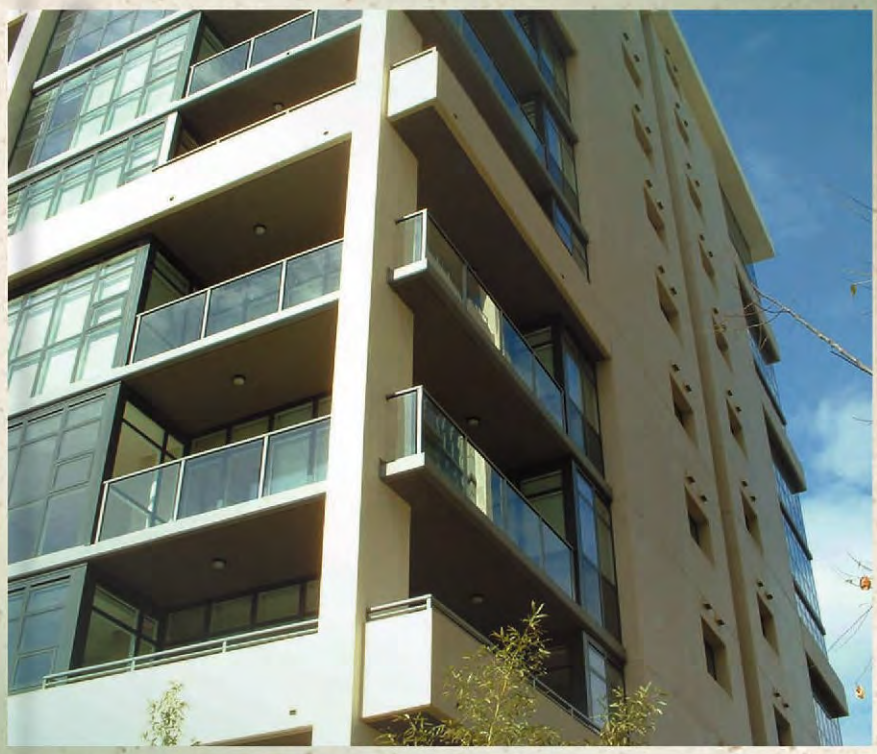
Infinity Series



Infinity standard aluminum railing provides a variety of configurations with unique continuous top rail styles engineered for strength.

Powder coated for environmentally friendly durability and low maintenance in a color to match your project with a variety of standard and custom colors (available upon request).

Our glass railing is the perfect solution for when unobstructed views are desired offering a unique design and ease of installation.

We **extrude** our own systems offering a complete system with **glass.** Among other applications are,

- Standard Glass Railing
- Topless Glass Railing
- Fencing
- Custom Railing
- Handrail
- Pool Surrounds
- Wind & Privacy Wall
- Gates

200 Series Railing

Infinity Series

Quality and Strength

Infinity Railing are Fabricated with the highest grade extruded Aluminum, 40 times stronger than wood. Aluminum is one of the sturdiest material that exists. This railing can handle tough weather conditions and resists rusting.

Infinite Series Railing is engineered to provide maximum strength using: ASTM 6063-T5 or 6005A-T6 Aluminum.

Systems

The Infinity Railing welded system is the most cost effective, yet offers many pleasing qualities to your project. This system is not only vibrant to the eye, but it easily adapts to most proposals.

Choose the top rail that best fits your design/ application and works the best out of our four systems options.

Finishes

Architectural Metals Designed, Engineered and Manufactured By PRL with a high-end powder coating to provide the highest performance from Corrosion, Heat, Impact, Abrasion, Fading and Weather Conditions.
